

HP COMPAQ 6720T MOBILE THIN CLIENT

GO MOBILE. GO THIN.

Mobile, more secure, reliable, thin client (15.4-inch diagonal display)

Remain more secure and productive

The HP Compaq 6720t Mobile Thin Client provides convenient enhanced security access to server-based, virtual PC or blade PC computing solutions while still providing the mobility of a notebook.

Enhanced security

By design, server-based computing provides increased protection of your corporate data by having data files and software applications stored on your secure, centralized server instead of being stored directly on a mobile thin client. If the device gets stolen or lost, none of the company's data risks falling into the wrong hands. You can also help prevent unauthorized application installations and virus writing to disk with the included Enhanced Write Filter.

Simplify IT operations

Updating or adding entire fleets of users just got a whole lot simpler since data and applications are deployed, managed, supported, and executed on a centralized server. The HP Compaq 6720t helps reduce the workload for IT staff with manageability

features such as: HP ThinState Tools to help easily deploy, configure, and manage software using a simple USB flash key for image capture and deployment, Altiris Deployment Solution, and support for HP OpenView Client Configuration Manager.

Increased reliability

Solid-state design means no moving parts, which results in higher reliability, lower ownership costs, and extended product life.

Stay productive away from your desk

The HP Compaq 6720t helps you stay connected where you need to work by offering Wi-Fi Certified WLAN.³ Need more of a desktop-like view? Then the 15.4-inch diagonal widescreen WXGA with anti-glare display will suit your needs. A full-sized thin keyboard delivers desktop familiarity. With the integrated touchpad, quickly access documents, applications, and websites, replacing the need for an external mouse. Configure without an optical drive for extreme reliability or an optional integrated optical drive for enhanced convenience.
