

THE COMPUTER IS PERSONAL AGAIN.

HP iPAQ 910 BUSINESS MESSENGER

The smartphone you'd expect from HP

The HP iPAQ 910 Business Messenger is a smartphone built on HP's computing expertise

Packed with features that combine the best of your mobile phone, notebook computer and personal navigation device, the 910 puts the power of HP computing within your grasp. The iPAQ 910 delivers all the productivity you'd expect in a smartphone from HP.

Flexible connectivity

This mobile phone with 3G wireless technology for enhanced global communication helps you make calls and go online in countries around the world.^{1,2} Access the Internet and email with high-speed HSDPA or integrated 802.11b/g wireless networking.^{1,2} Use your iPAQ to connect your notebook/PC to use the Internet using built-in Microsoft Internet Sharing.¹

The 910 is unlocked so you can insert your existing service provider's activated GSM SIM card in and go.^{1,2}

Travel made easy

Navigate unfamiliar territory or around traffic problems easily with GPS⁴ and Google Maps™ for quick street map and points of interest access.

Work the way you want to

Read and respond to email using the high-resolution touch screen and QWERTY keyboard. Or keep one hand free while listening and replying to email or initiate commands with your voice using the Cyberon Voice Commander or HP Voice Reply.³

Choose from several simple alternatives to access the various functions you want: 5-way navigational pad, a thumb wheel to scroll elegantly through your email, dedicated function buttons, soft keys or the touch screen itself.

Capture photos and video with the integrated 3-Megapixel camera. View and edit them with HP Photosmart Mobile, then upload¹ to Snapfish.

Utilize the features of the new and more user-friendly Microsoft Windows Mobile™ 6.1 to download, view and edit Microsoft documents to fully extend your office.

HP Solutions	Businesses can manage and secure its portfolio of mobile handheld devices over-the-air with HP's Enterprise Mobility Suite (EMS) ⁵ Visit www.hp.com/go/ems to learn more.

1. A standard GSM/GPRS/EDGE/UMTS/HSDPA, WiFi or other Bluetooth-enabled devices, separately purchased equipment, and a service contract with a wireless airtime provider may be required for applicable wireless communication. Wireless Internet access requires separately purchased Internet service contract. Check with service provider for availability and coverage in your area. Not all web content available. Wireless transmission speeds may vary based upon network capabilities and other conditions.

Establishment and continuation of a wireless connection depends on network availability, provider support and signal strength.

2. Telephone service requires separately purchased contract with a telephone service provider with coverage in your service area. Additional fees may apply for some features, check with service provider.

3. The 'Read email' Voice Command feature is only available for email sent via an Exchange Server to the Outlook Inbox.

4. Purchase of additional maps and/or software may be required to enable some features or allow navigation in certain areas. Availability of maps is limited. Map coverage may vary and is not guaranteed.

5. Today, EMS is not currently a standard offering by resellers. Contact your HP account representative to understand terms and conditions.

6. Wireless transmission speeds may vary based upon network capabilities and other conditions. Actual transmission speeds of wireless wide-area data communication may vary.

Maximum connection speed is used in defining maximum speed. The wireless service provider may change the speed of connection and reduce time slots at its discretion if the network is congested. These actions may cause lower total data rate than the requested data rate.
