For more details visit <a href="http://www.hp.com/go/lookuptool">www.hp.com/go/lookuptool</a>

1 A standard GSM/GPRS/EDGE/UMTS/HSPA infrastructure, Wi-Fi network access, other Bluetooth-enabled devices, separately purchased equipment, and a service contract with a wireless service provider may be required for applicable wireless communication. Wireless Internet access requires separately purchased Internet service contract. Check with service provider for availability and coverage in your area. Not all web content available. Normal GSM Data Calls (CSD) are not basic GSM data services. These services may not be available via all service providers, and may require separate subscription. Establishment and continuation of a wireless connection depends on network availability, provider support and signal strength. Coverage is subject to transmission limitations and terrain, system, capacity and other limitations. Wireless transmission speeds may vary due to location, environment, network capabilities and other conditions. Not all features and service options are available in all areas. Roaming capabilities between carriers require service contracts with those carriers.

2 Telephone service required. Additional fees may apply for some features, check with service provider.

3 The 'Read email' Voice Command feature is only available for email sent via an Outlook Exchange Server to the iPAQ Glisten Outlook Inbox

4 Service levels and response times for HP Care Pack Services may vary depending on your geographic location. Restrictions and limitations apply. Visit [www.hp.com/go/carepack](http://www.hp.com/go/carepack).

5 Sold separately or as an-add on feature.

6 Purchase of GPS maps and navigation software may be required to enable some features or allow navigation in certain areas.
